

SUPPLEMENTARY TABLE AND FIGURES

Jinghua Yang, Nirav Y. Shelat, C. Allen Bush and John O. Cisar, Structure and Molecular Characterization of *Streptococcus pneumoniae* Capsular Polysaccharide 10F by Carbohydrate Engineering in *Streptococcus oralis*

Table S1. PCR primer pairs used for cloning genes from strains of *S. pneumoniae* in pJY

Primer pair (5'-3') <sup>a</sup>	Gene	Strain	Plasmid
GATAGGAT <u>CCCTTTGTCTATCCTGTGCAGTTGGTG</u> GCT <u>AGAATTCCCGCTCCACCAATTACTTAGATTATATC</u>	wcrB	34355	pJY-11
TATA <u>CCTAGGTACCTGTAGTTGAAGATAGGAAATCAC</u> CATT <u>CCATGGGTCAATAAACACTCTGCATCTTGTCTC</u>	wcrF	34355	pJY-12
CTTT <u>GGATCCAAGACTATTGGACGTGTTAGTGAGC</u> AAT <u>AGAATTCCGGTAGATAGTCCCATAATCCTCC</u>	wzy	34355	pJY-13
CGTGC <u>CTAGGATGTGGTAGAAGAAGAACTAGGGAG</u> GCT <u>ACCATGGACTTGAAATTAGCATTCCTACTCAATTAG</u>	wcrH	34355	pJY-14
AGAT <u>GCGGCCGCTGGTTATCTGATAGATTGTTATGATACCG</u> CTAAG <u>GCGCGCTCTAAATT CCTCTCTTTCTTTCTT</u>	wcrD	ATCC 8334	pJY-15

<sup>a</sup>Restriction sites used for cloning in pJY are underlined.

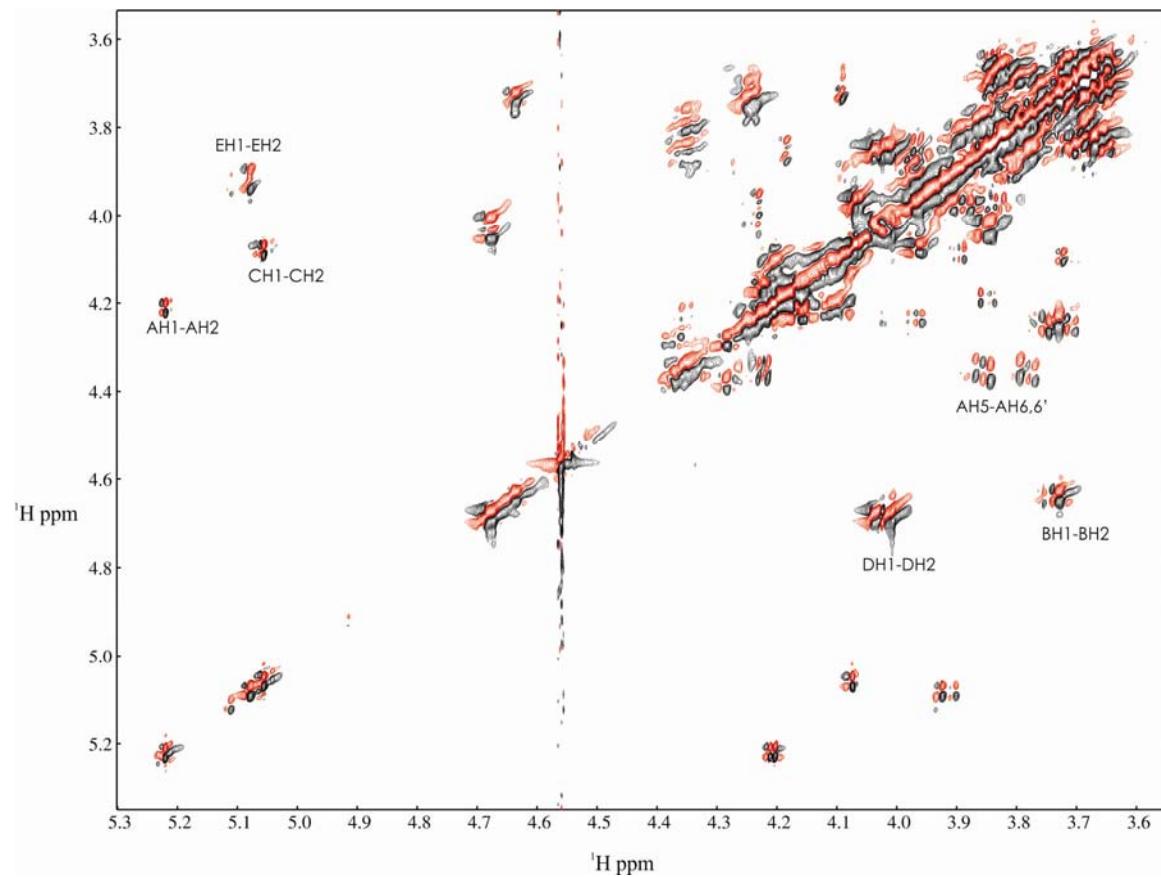

Fig. S1. COSY spectrum of *S. pneumoniae* 34355 CPS10F at 45°C

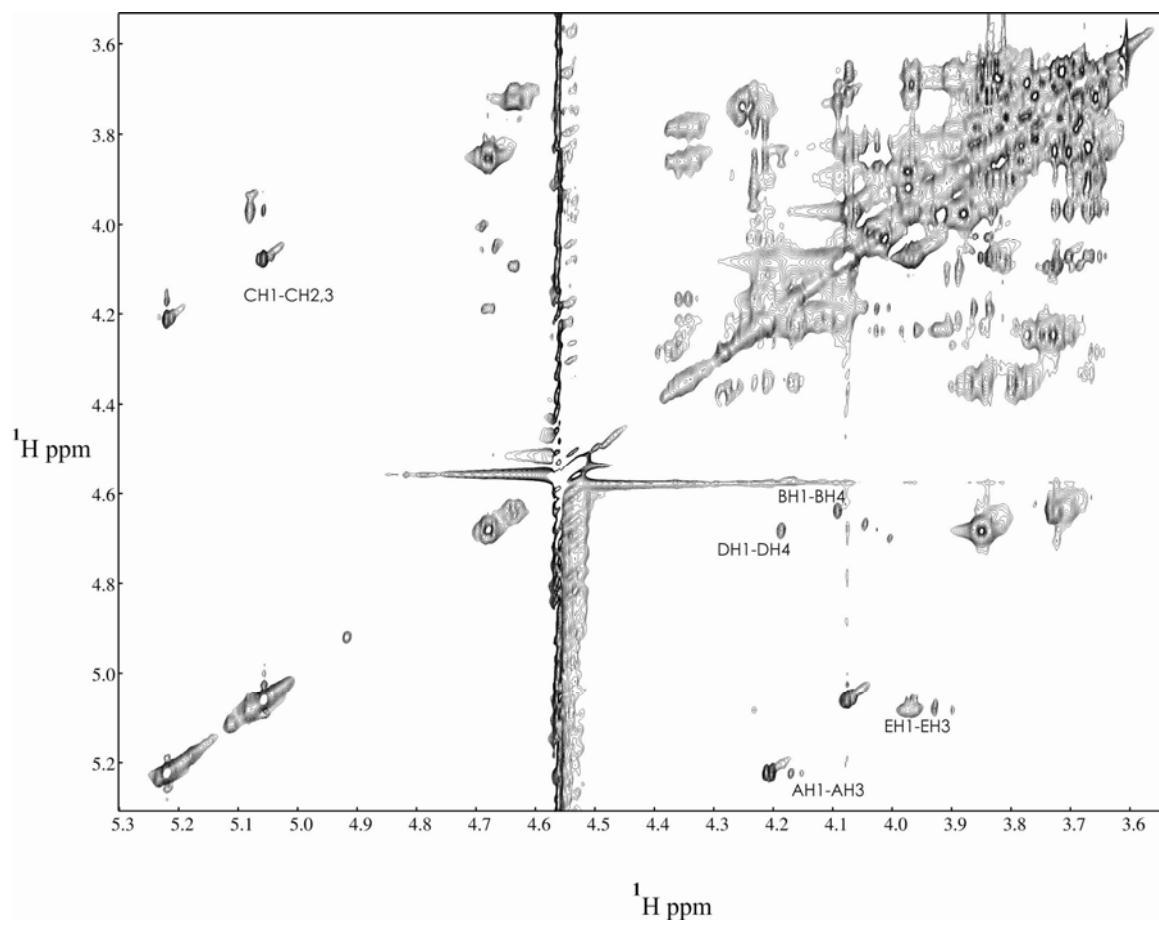

Fig. S2. TOCSY spectrum of *S. pneumoniae* 34355 CPS10F at 45°C

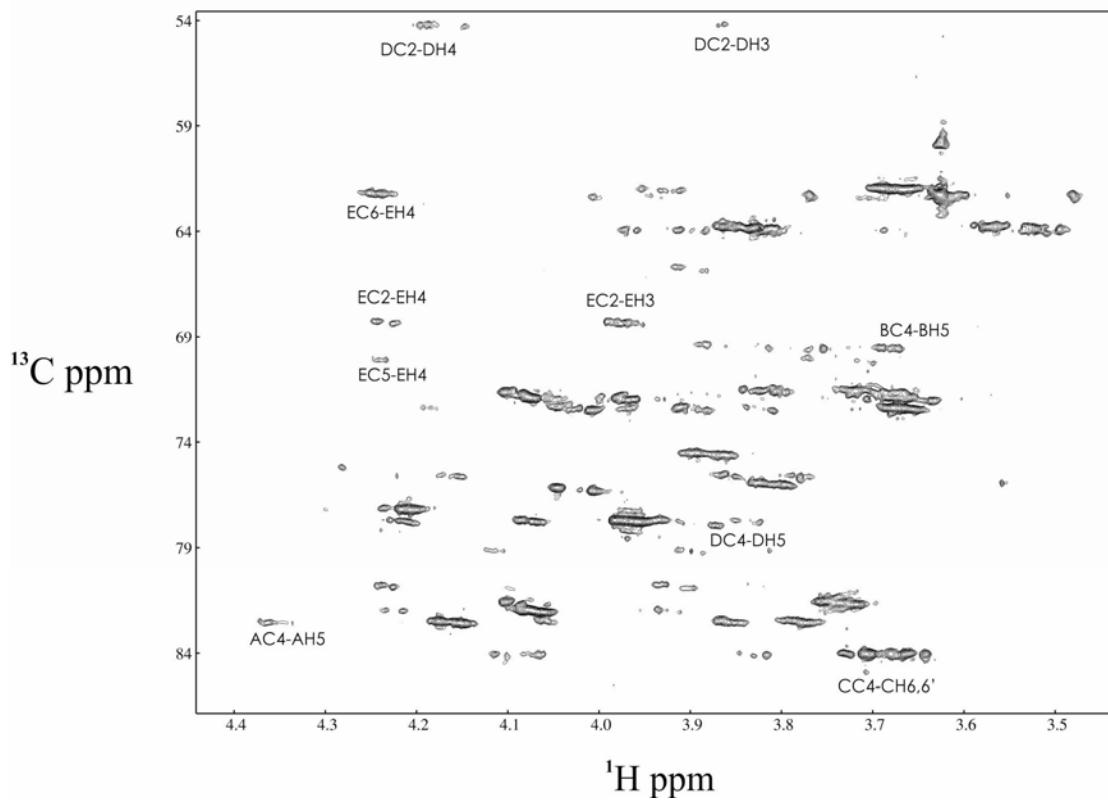

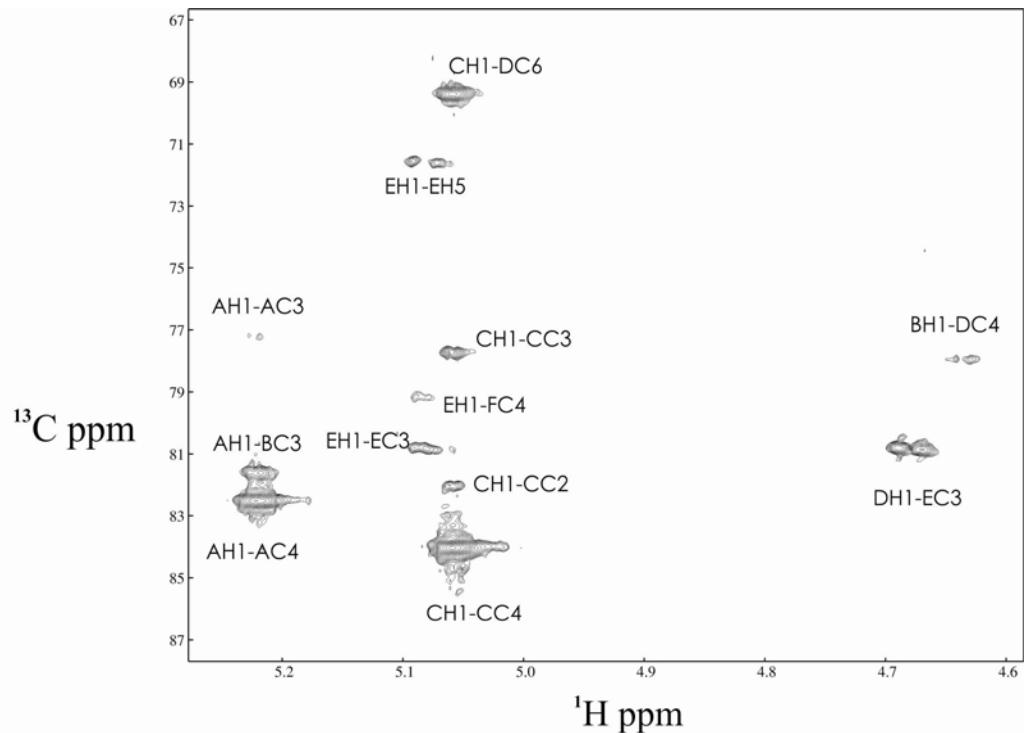

Fig. S3. Anomeric region (upper panel) and central region (lower panel) of the HMBC spectrum of *S. pneumoniae* 34355 CPS10F at 45°C

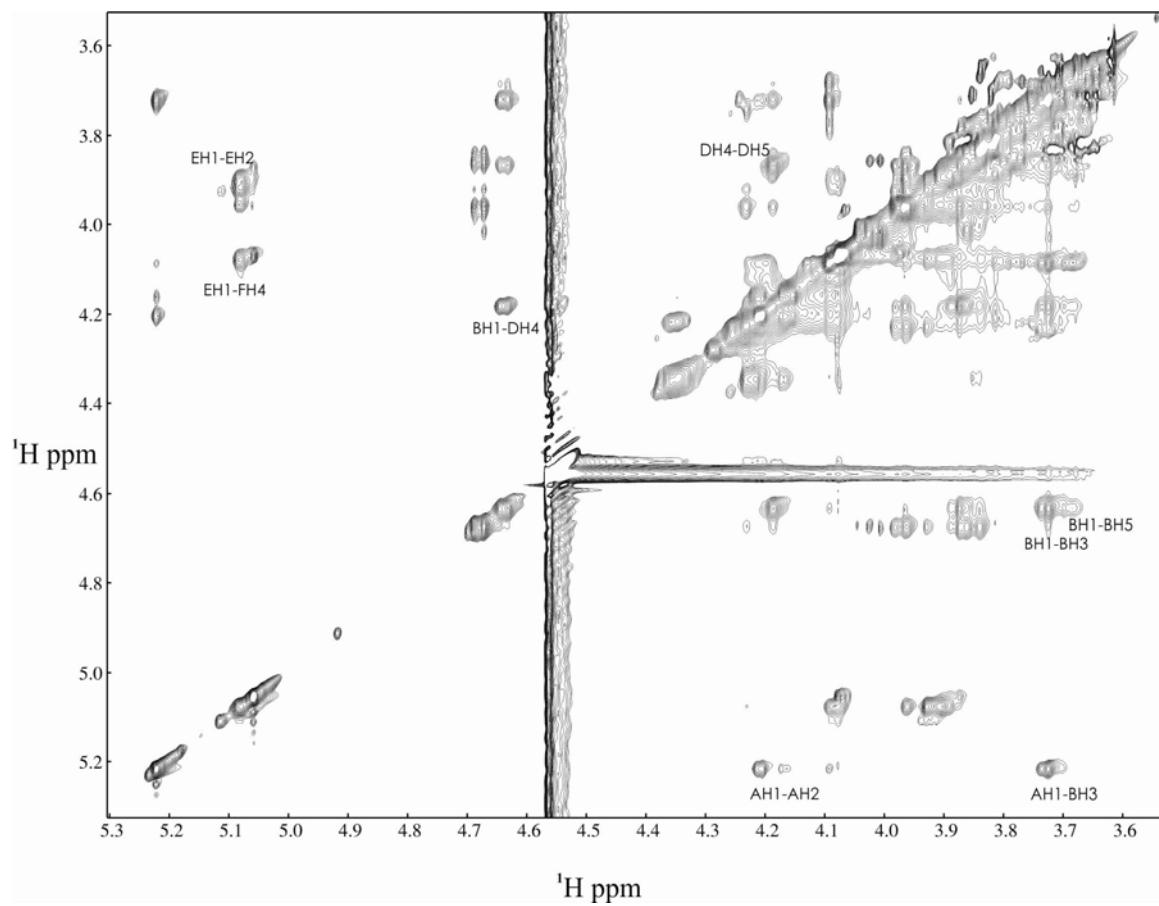

Fig. S4. NOESY spectrum of *S. pneumoniae* 34355 CPS10F at 45°C

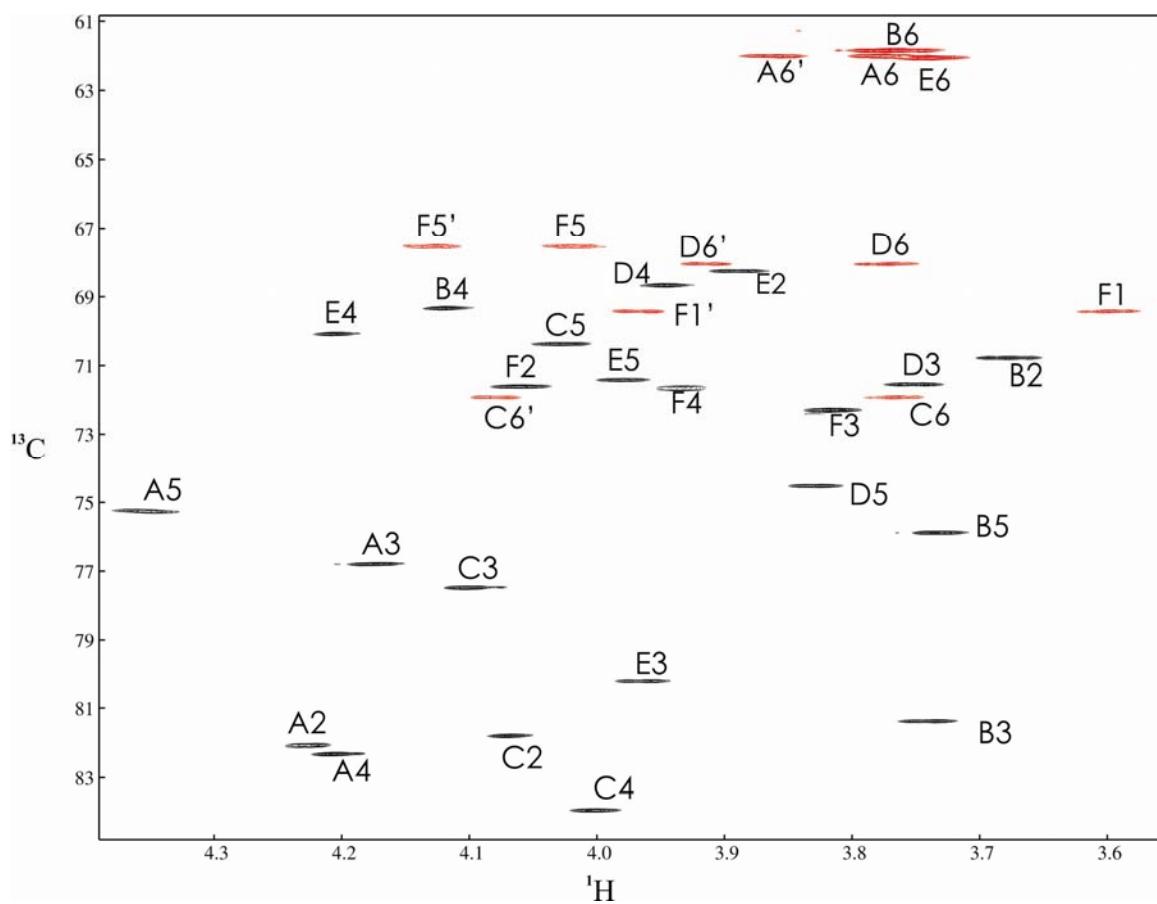

Fig. S5. Central region of the multiplicity-edited HSQC spectrum of *S. oralis* YC7(pJY-11) polysaccharide at 25°C. Negative contours (red) indicate methylene groups.

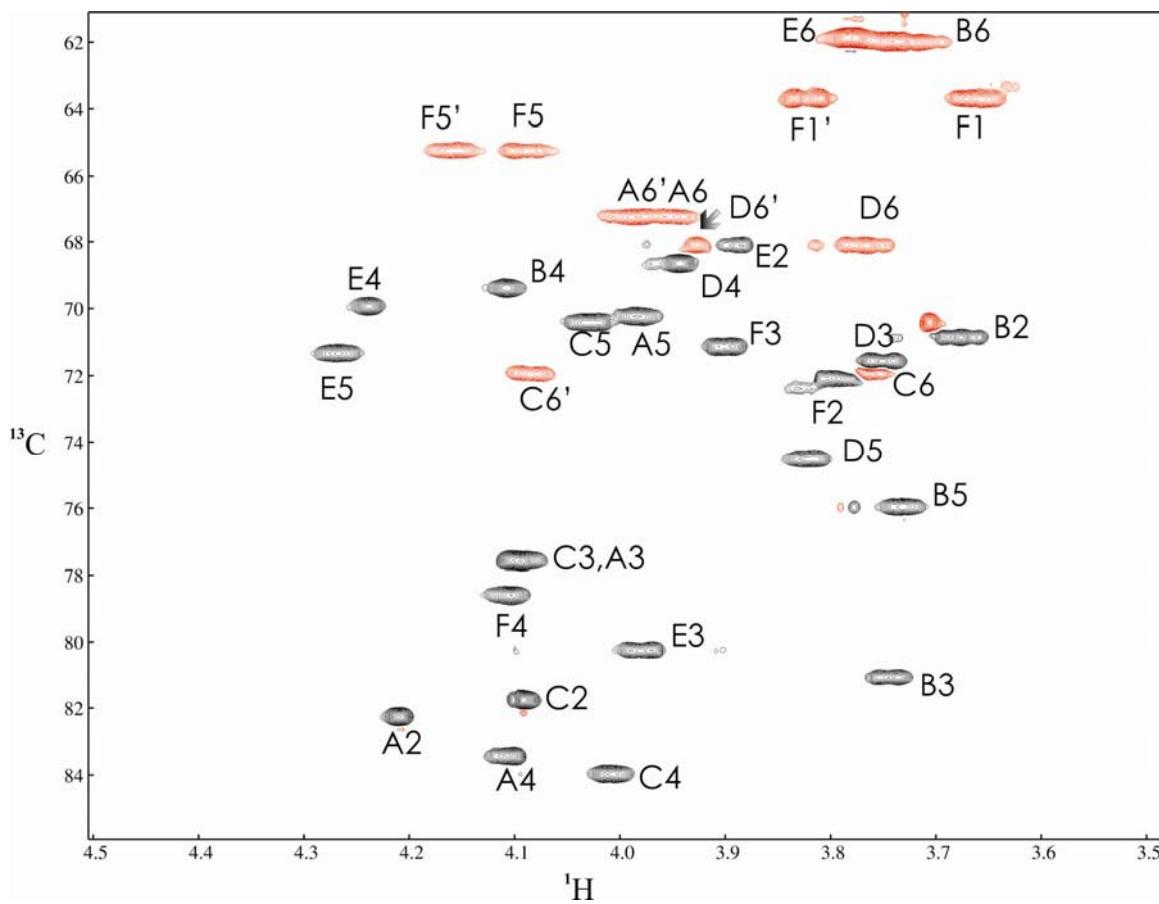

Fig. S6. Central region of the multiplicity-edited HSQC spectrum of *S. oralis* YC1(pJY-12) polysaccharide at 25°C. Negative contours (red) indicate methylene groups.

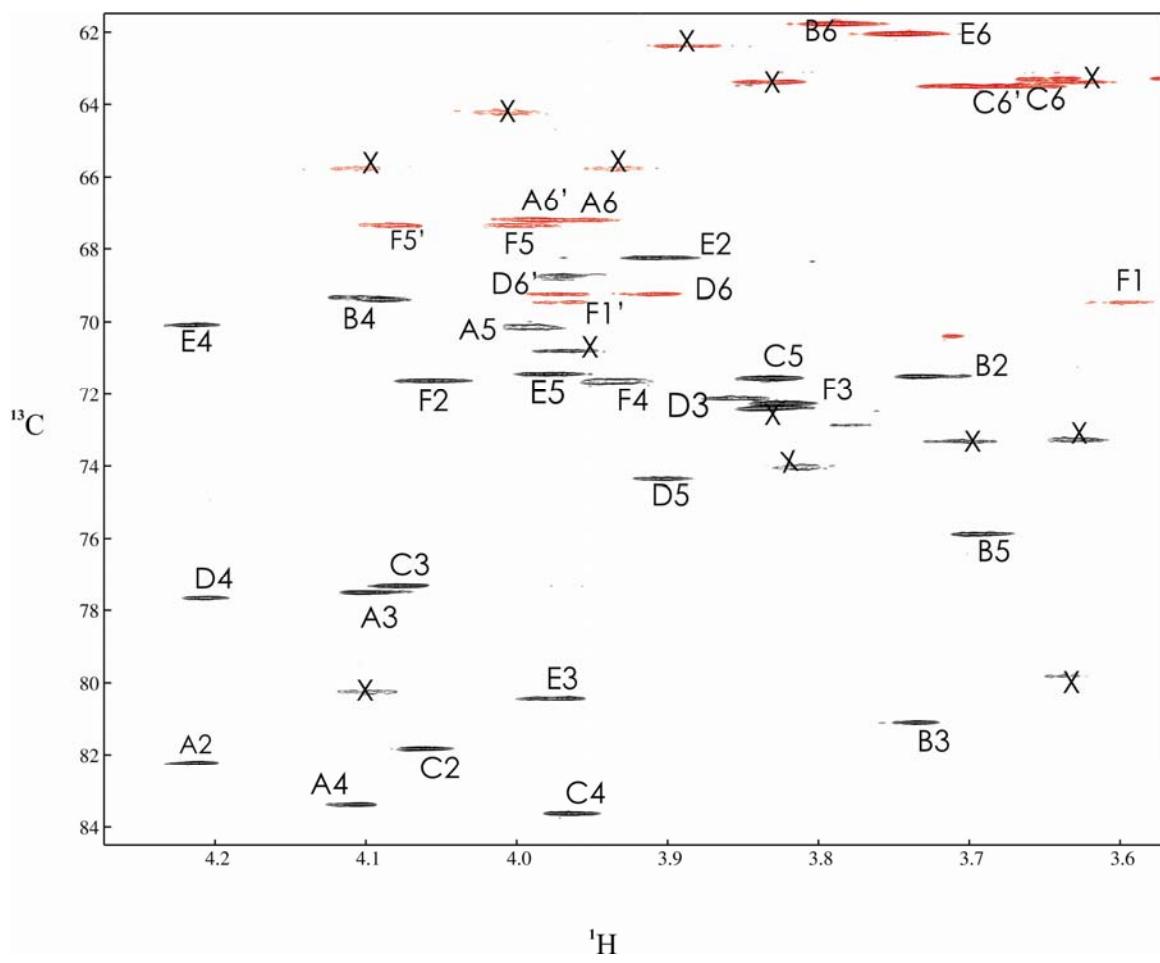

Fig. S7. Central region of the multiplicity-edited HSQC spectrum of *S. oralis* YC8(pJY-13) polysaccharide at 25°C. Negative contours (red) indicate methylene groups. “X” indicates unassigned peaks associated with impurities.

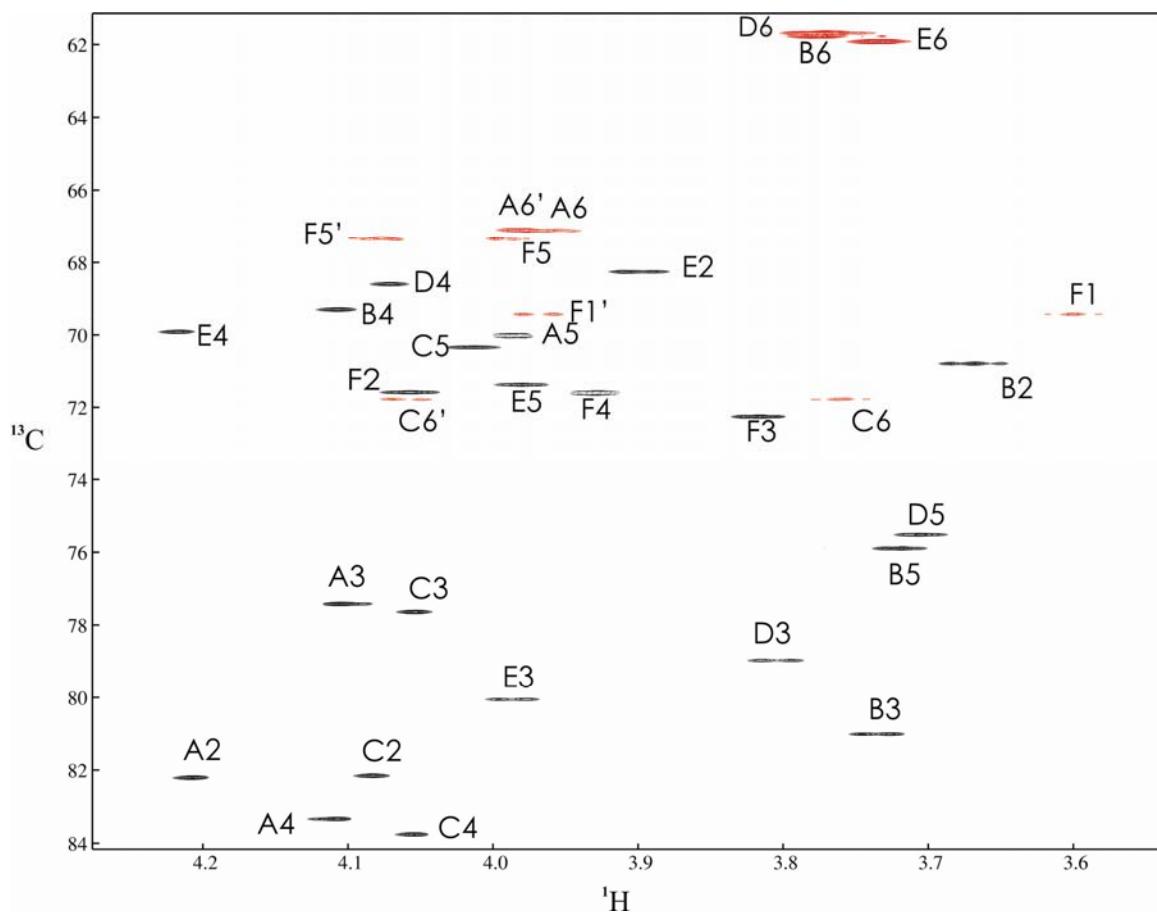

Fig. S8. Central region of the multiplicity-edited HSQC spectrum of *S. oralis* YC6(pJY-15) polysaccharide at 25°C. Negative contours (red) indicate methylene groups.
