Student's Effort average score 4.61

Comments:

Dr. Gurzick was extremely enthusiastic each and every class. It was obvious that he sought new & creative ways to approach lectures. His use of stories/examples during class was helpful in understanding concepts. The case write-ups were challenging at times because the themes did not seem to come directly from lectures.

Prof. Gurzick is a really good professor. I especially like how fair he is in his grading. I didn't get grades on some papers I wanted but he provided a lot of constructive feedback and reasoning for my grades.

Dr. Gurzick did an excellent job getting his points across using challenging and entertaining lessons. Best teacher in the MBA program so far.

Always involving the students made this course unique. In doing it fostered a level of learning not felt. The social exercises were great. More of those would make this class even better.

Dr. Gurzick is a great and excellent teacher. He is having a wealth of knowledge.

Dr. Gurzick does a nice job of making a dry subject interesting and applicable to our jobs. I like his interactive assignments that complement the lectures – they are thoughtful as well as applicable. I also appreciate Dr. Gurzick's real-life work experience that he brings and uses as examples. My only suggestion for improving the class experience is to make the lecture more interactive. He typically will make this part one-way and this can get boring. I would suggest asking open-ended questions, asking for examples, etc. Dr. Gurzick does do this some, but not enough and not for every lecture. Otherwise, Dr. Gurzick is a smart and funny guy that is a great asset to Hood.

I really enjoyed the class. Dr. Gurzick made this interesting, interactive, and fun! I can actually say I learned things that would benefit me. I liked the reading assignments and most of all the end of semester project & presentation.
