

Your name:

Consider TCP's three-way handshake.

1. What is the primary purpose of the first message above?

For the client to request a TCP connection with the server.

2. What is the primary purpose of the second message above?

For the server to tell the client that it accepts the connection request.

3. What is the primary purpose of the third message above?

For the client to let the server know they both agree that there is a connection.
