

The GLOBE Program

Global Learning and Observations to Benefit the Environment Certification

Jill D. Scholnik

is hereby certified as a Teacher of the Global Learning and Observations to Benefit the Environment (GLOBE) Program. As a certified GLOBE Teacher, this educator is qualified to guide GLOBE school students in taking GLOBE environmental measurements, reporting GLOBE data and using GLOBE environmental images. These GLOBE activities will be pursued in the interest of achieving the objectives of the GLOBE Program: to enhance environmental awareness throughout the world, to contribute to scientific understanding of the Earth and to improve standards in science and mathematics education.

A handwritten signature in blue ink, appearing to read "Syke", written over a horizontal line.
