Because of number-of-pages limitations, we decided to limit the number and length of citations and endnotes in the texts and to employ as many space-saving formats as possible. If we used traditional approaches to citing and using notes, the texts would have been unbearably long. However, despite the citing parsimony we feel that readers will be more than adequately pointed to evidence and sources.

**Illustrative Bibliography, Information and Intrigue and Related Volumes, August, 2017**

This bibliography contains some of the more important and more readily available secondary works used in the project. For the primary documents and their sources, see the texts.
